Barrhaven, Ottawa

"Hi, my name is Abhishek Gaur. My family is originally from Alwar, Rajasthan, but from last few generations, we are settled in Kanpur, UP.

My first marriage ended unfortunately, rather quickly with a cohabitation of only 8 months. I am ready to start a new phase of my life, and looking for an educated and well-mannered girl residing in Ottawa for marriage.

I did my undergrads from NIT Durgapur in India, then moved to Canada in 2011 for graduate studies and completed my PhD in Civil and Environmental Engineering in 2016. I have been working as a scientist with the Canadian government since then in Ottawa. My intention is to stay in Ottawa in the long run.

I spend most of my either working, or singing, watching movies, and playing musical instruments. I love going for long walks too.

If my profile interests you, please do reach out by phone or email provided here."
